ABOUT ME

I am a Final year B.E. student in Electronics and Computer Engineering at PICT, Pune, with strong problem-solving skills and Java as my primary language for Data Structures and Algorithms. Skilled in Spring Boot and React for developing scalable and user-focused web applications. Passionate about software development, technology, and innovation, with a strong interest in building impactful applications and working effectively in collaborative teams.

EDUCATION

CGPA: 8.78 **HSC:** 79.17% **SSC:** 95.80%

SKILLS

Languages: Java, Python, C, JavaScript
Frameworks: Spring Boot, React.js
Backend: REST APIs, Spring Data JPA, Hibernate
Databases: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, Postman, Swagger/OpenAPI
Concepts: Data Structures and Algorithms, OOP, DBMS, RESTful Web Services

EXPERIENCE

Full Stack Web Development Intern (In-House Internship) *Sep 2024 – Sep 2025*

- Contributed to a college website as part of a 14-member team, working in the Database Management team on database design, data modeling, and SQL/NoSQL database management.
- Collaborated with frontend and backend teams to integrate database services and ensure efficient data access and consistency.

AWS IoT Cloud Engineer Intern (AICTE – EduSkill: Virtual Internship) *Jan 2026 – Mar 2026*

- Developed an IoT Device Management Dashboard using AWS IoT Core, MQTT, IoT Thing Groups, device certificates, and AWS IoT policies for secure device connectivity and monitoring.
- Gained hands-on experience with AWS cloud services, IoT device management, and secure cloud-to-device communication.

PROJECTS

Placement Prep Live Demo

- Built a unified placement preparation platform addressing the gap where students have **many resources for learning but limited platforms for structured practice**, combining **Aptitude, CS Fundamentals, and DSA** in one place.
- Engineered the full-stack application using **React 18, Spring Boot 3, and MySQL**
- Implemented **JWT authentication**, Google OAuth 2.0, and **role-based access control** for `STUDENT` and `ADMIN` user.
- Developed a **timed test engine** with balanced difficulty selection, countdown timer, instant results, explanations, and customizable tests of up to 30 questions.
- Created an **Admin Portal** with question bank CRUD, CSV/Excel bulk upload and validation, student management, and dynamic curriculum management. “‘

Culinary AI – AI Recipe Assistant Live Demo

- Developed a full-stack AI recipe application using Java, Spring Boot, REST APIs, HTML, CSS, and JavaScript for personalized recipe generation.
- Integrated Google Gemini API for ingredient validation, recipe generation, cooking recommendations, and image-based ingredient detection; used Spring Data JPA, Hibernate, and PostgreSQL for data persistence.
- Deployed the application on Railway and tested/documented RESTful APIs using Swagger/OpenAPI and Postman.

ECE Department Website

- Developed a responsive department website providing academic resources, announcements, events, and information for students and faculty.

- Managed the database layer as part of a 14-member development team, using MongoDB and MongoDB Atlas for data storage and management.

CLUBS & SOCIETIES

- **Debating Society (DebSoc):** Member of the society engaged in debates, discussions, and public-speaking activities to enhance critical thinking and communication.

ACHIEVEMENTS

- Achieved a 2-Star rating on CodeChef and a 1500+ contest rating on LeetCode through regular participation in competitive programming.
- Solved 150+ Data Structures and Algorithms problems across LeetCode, GeeksforGeeks, and CodeChef, strengthening problem-solving and algorithmic skills.

CERTIFICATIONS

- **Infosys Springboard – Basics of Python** – Completed training in Python fundamentals, programming concepts, and problem-solving.
- **AWS IoT Cloud Engineer Virtual Internship – AICTE EduSkills** : Completed a virtual internship focused on AWS IoT Core, MQTT, IoT device management, and cloud-based IoT solutions.
